PROFESSIONAL PRACTICE

Flexwork LATAM(Perú)

Jan 2024 – present

Flexwork is a remote employment platform, its focus is on flexible job offers and a transparent hiring process.

Technologies used: React, TailwindCSS, Redux Toolkit, Node, Express, PostgreSQL

Andromeda Computer (Colombia) - Internship

oct 2023 – nov 2023

Gaia Ecotrack: It is a natural energy tokenization system for subsequent commercialization on the Algorand network.

I work as a frontend developer in design and on the server, side making smart contracts

Technologies used: TailwindCSS, React, Redux-Toolkit, Algorant, Algokit, Typescript, Tealscript, Docker, Jest.js, Blockchain

Tu Sueño (Colombia)

set 2023 - oct 2023

Tu Sueño: I participated in a group project for a colombian piggy bank sales company, contributing to the development of a comprehensive digital solution that transformed inventory management and online sales, providing functionality and efficiency to the company:

- **Development of a complete user management system with defined roles to efficiently manage access and responsibilities in the application.**
- **Development of comprehensive functionality to effectively record and monitor business transactions.**
- **Establishment of a system of inventory levels, ensuring efficient management of products and available resources.**

PROJECTS

Full Stack Web Developer – AGILIX (P.O.S) **Academic experience. Henry Bootcamp**

jul 2023 – Agosto 2023

Agilix is a Point of Sale (POS) System that simplifies the management of retail businesses, driving their growth through an intuitive and efficient web application.

I highlight these points of the application:

- **Processing and management of commercial transactions.**
- **Sistema de usuarios con roles y permisos.**
- **Efficient Inventory control in real time.**

Full Stack Web Developer – IP VIDEOGAMES **Academic experience. Henry Bootcamp**

jun 2023 - jul 2023

I developed a full stack web application with a videogame API as an individual project in Henry Bootcamp. I highlight:

- **Exploration of a wide collection of video games with various search options and creation of personalized video games.**
- **Filters for video games created by the user and also filters by genre.**
- **Sorts by alphabetical order and rating.**

Full Stack Web Developer – Rick and Morty

may. 2023 - jun. 2023

Designed and developed a Rick and Morty themed full stack web application that allows users to explore over 800 characters from the series, save favorites and apply genre filters, and alphabetize favorite characters.

TECHNOLOGIES:

Programming languages: Typescript, JavaScript

Frameworks: Next.JS, TailwindCSS, React, Redux, Vite, Node.js, Express.
